## Color Leadership

The value of aesthetics isn't lost on Clark Dietrich, especially when it comes to impeccably finished wall and ceiling surfaces. In addition to our standard white vinyl accessories, we've taken the lead in stocking vinyl accessories in gray, tan and brown.

If standard colors won't meet the aesthetic requirements for the job, our custom color program, VinylColor<sup>TM</sup> Extrusions, is the answer. Just provide a sample of the color that you would like us to match and we will send back a color-matched product sample and quote for your approval. Drywall & Veneer Accessories: Corner Beads, Arch Beads/Archway, Inside Corner Trim, Bullnose Corner Beads, Bullnose Arch Beads/Archway, Bullnose Kerfed Bead, Bullnose J-Bead, Inside Corner Coves, Bullnose Corner Caps, Bullnose Transition Caps, Chamfered Corner Bead, J-Beads, Rip-Bead®, F-Bead, L-Bead, Ceiling Trim, Control Joints, Control Joint Intersections, Expansion Joint, Partition End Caps, Shadow Reveals, Channel Reveal Intersections, Colored Vinyl Extrusions and other miscellaneous vinyl drywall accessories. Durability: Impervious to corrosion when

**Durability:** Impervious to corrosion when coated with veneer plaster, wet joint compounds or when placed in contact with steel or aluminum frames. Vinyl accessories do not contain plasticizers which could migrate to the surface.

**Impact Resistance:** Due to superior impact resistance, rigid vinyl accessories are resistant to dents and kinks of corners and edges during construction.

**Corrosion Resistance:** Vinyl accessories are impervious to rust, corrosion, galvanic corrosion, electrolysis, and are not affected by fast setting joint compounds or topping compounds.

**Solid Color:** Gray, tan, brown and custom color options are available as a special order. Contact Customer Service at 1-800-648-4695 to order.

**Paint Adhesion Properties:** Excellent, no priming is required.

Ignition Resistance: Rigid vinyl is self extinguishing, and will not continue to support combustion once the flame source is removed, therefore it will not cause a fire to reignite or spread. It offers better resistance to burning than many other common building materials

**Electrical Conductivity:** Rigid vinyl possesses low electrical conductivity.

**Thermal Conductivity:** Rigid vinyl is warm to the touch and has a very low transmission of heat or cold and it is considered an excellent insulator.

Expansion and Contraction: Clark Dietrich wall & ceiling accessories are manufactured with perforations in the flanges to allow finishing compounds or veneer plaster to flow through and bond to wallboard. Perforated flanges remain embedded in joint compound to reinforce the edges and corners. These factors, along with the fastening of accessories to substrate prior to coating makes the accessories part of the building unit and therefore will move with it as the temperature changes. Consequently, the coefficient of expansion of rigid vinyl has little to no bearing on the installation.

**Basic Uses:** To produce durable, straight edges, corners, smooth curvatures, and arches and to protect and preserve edges of wallboard from impact and condensation.

#### 4. TECHNICAL DATA

#### Applicable Standards:

ASTM C1047 ASTM D3678 Class 2

**Limitations:** Not recommended for exterior applications unless noted by exterior ASTM specification number.

#### 5. INSTALLATION

#### Applicable Standards:

Installation shall be in accordance with ASTM standards and prevalent industry standards and good practices. Vinyl accessories shall be mechanically fastened to the substrate in straight lines or smooth curves.

#### 6. AVAILABILITY AND COSTS

ClarkDietrich accessories are generally priced comparable to equivalent products manufactured in galvanized steel and substantially lower than zinc or aluminum. ClarkDietrich accessories that are in stock will usually be shipped within 24 hours after receipt of order. Accessories are marketed nationwide through distributors and building supply dealers.

#### 7. PACKAGING

180 lb. test, single wall, corrugated boxes.

#### 8. WARRANTY INFORMATION

Available upon request.

**Note:** All size references are nominal dimensions and subject to normal manufacturing tolerances.
