## EXPERIENCE THE *ENVISION DIFFERENCE*

### *Pressure makes diamonds.*

The only composite decking made using compression molding, our proprietary Compress Technology uses tremendous heat and pressure to physically bond the materials together - creating decking that's not just stunningly beautiful but dense, strong, and engineered to last.

### *The look you crave.*

Go bold or go simple – with deep, non-repeating grains paired with options ranging from multiple colors and highlights in each board to striking, solid colors; you can design a deck that perfectly matches your personality and style. Use a single perfect color, add accents, or mix and match to find your own singular design – the choice is yours.

### *Strong to the core.*

The core of all our boards is built on EverGrain – decking that's trusted in national parks, stadiums, amusement and water parks, and homes across the country. It helps make our decking durable and resilient.

DECKING COLLECTIONS

All our collections are the same dimensions, allowing you to use a single color, add accents, or mix and match to find your own unique design.
